## SKILLS

Xcode	Swift	ObjectiveC	MVC
OOP	CoreData	CloudKit	AVFoundation
Muli-Threading	APIs	JSON	HTML
Scrum	Sketch	UI/UX	Wire-Framing
Jira	InVision	Charles	Code-Review

## PROJECTS

<b>12 AM</b> iOS App	Scrum Master and Design Leader. Managed version control and approved merges. Completed 3 syncable protocols that efficiently returned the most recent objects from CloudKit. Custom error handling that reduced the time spent on de-bugging. Used Xcode Instruments to track down memory leaks.
-------------------------	--

## EXPERIENCE

<b>Dev Mountain</b> Lead iOS Instructor	Mentored 125-150 students while teaching common iOS practices with CoreData, CloudKit, Multi Threading, JSON, and MVC. Helped students debug to get their personal and group capstones on the App Store. Helped update the curriculum from Swift 3 to Swift 4.
<b>Contravent Labs</b> Incubator Client	Mentored by business strategists, QA's and Product Designers. Followed the Nail It Scale It approach by making an 80 page research backed pitch deck and a 10 page presentable pitch deck. Conducted large amounts of research to understand the persona and product market fit by conducting 4 different surveys.

## EDUCATION

<b>Regis University</b>	Bachelor of Science in Finance and Marketing
<b>Dev Mountain</b>	Full time iOS immersive cohort
